**Regulations of Karlsruhe Institute of Technology (KIT) for the Award of the Doctoral Degree in Engineering (Dr.-Ing.) or Natural Sciences (Dr. rer. nat.) at the KIT
Department of Civil Engineering, Geo- and Environmental Sciences**

dated November 28, 2018

Pursuant to Art. 10, par. 2, clause 5 and Art. 20, par. 2, clause 1 of the Act on Karlsruhe Institute of Technology (KIT Act – KITG), as amended on July 14, 2009 (Bulletin, pp. 317), last amended by Art. 4 of the Act on the Further Development of University Legislation (HRWeitEG) of March 13, 2018 (Bulletin, pp. 85) and Art. 38, par. 4, clause 1 of the Act of Baden-Württemberg on Universities and Colleges (Landeshochschulgesetz – LHG), as amended on January 01, 2005 (Bulletin, pp. 1), last amended by Art. 1 of the Act on the Further Development of University Legislation (HRWeitEG) of March 13, 2018 (Bulletin, pp. 85), the Senate of the Karlsruhe Institute of Technology (KIT) adopted the following statutes on November 19, 2018.

The President expressed his approval according to Art. 20, par. 2, KITG in conjunction with Art. 38, par. 4, clause 1, LHG, on November 28, 2018.

Article 26 Entry into Force, Transition Regulation

Section 1: General Provisions

Article 1 Doctoral Degree

- (1) The KIT Department of Civil Engineering, Geo- and Environmental Sciences of Karlsruhe Institute of Technology (KIT) (hereinafter referred to as KIT Department) awards the academic degree of a Doktor/Doktorin der Ingenieurwissenschaften (Dr.-Ing, Doctor of Engineering) or Doktor/Doktorin der Naturwissenschaften (Dr. rer. nat., Doctor of Natural Sciences) in a regular doctoral procedure.
- (2) The KIT Department can award the honorary degree of Doktor/Doktorin der Ingenieurwissenschaften ehrenhalber (Dr.-Ing. e.h., Honorary Doctor of Engineering) or of a Doktor/Doktorin der Naturwissenschaften ehrenhalber (Dr. rer. nat. h.c., Honorary Doctor of Natural Sciences) (Art. 24).
- (3) The KIT Department can renew a doctoral degree certificate awarded by it after 50 years (Art. 25).

Article 2 Doctoral Admissions Committee

- (1) The Doctoral Admissions Committee is appointed by the KIT Department Council. The Doctoral Admissions Committee consists of the KIT Dean (Chairperson), the Vice-Dean for Academic Affairs, and the three Studies Deans of the Executive Commission. A deputy each shall be appointed. Members and deputies may be persons authorized by the KIT Department to participate in doctoral procedures according to Art. 3, par. 1. The term of office is four years. Reappointment is permitted.
- (2) The Doctoral Admissions Committee may consult the persons authorized by the KIT Department to participate in doctoral procedures according to Art. 3 in decision processes pursuant to the present Regulations.
- (3) In the case of meetings of the Doctoral Admissions Committee in connection with scientific misconduct, an Ombudsperson with an advisory vote is to be consulted according to the "Regeln zur Sicherung guter wissenschaftlicher Praxis am Karlsruher Institut für Technologie (KIT)" (Rules for Safeguarding Good Scientific Practice at Karlsruhe Institute of Technology (KIT)).

Article 3 Persons Authorized to Participate in Doctoral Procedures

- (1) Professors according to Art. 44, par. 1, clause 1, No. 1, LHG, executive scientists according to Art. 14, par. 3, KITG, *apl. Professors*, and *Privatdozenten / Privatdozentinnen* are authorized in principle to participate in doctoral procedures. They may also be employed by a university outside of the state of Baden-Württemberg or by a state-owned or state-recognized equivalent university abroad. According to Art. 55,

LHG, honorary professors having a doctoral degree may also participate in doctoral procedures.

- (2) Moreover, (early-stage) researchers of Karlsruhe Institute of Technology (KIT) who were granted the status of a “KIT Associate Fellow” may be permitted to participate in doctoral procedures. The proceeding and the rights and obligations of the “KIT Associate Fellow” shall be subject to the “Verfahrensordnung des Karlsruher Instituts für Technologie (KIT) zur Errichtung des Status eines „KIT Associate Fellow”” (Rules of Procedure of Karlsruhe Institute of Technology (KIT) for Establishment of the Status “KIT Associate Fellow”), unless divergent provisions are specified by the present Regulations.
- (3) Professors of Universities of Applied Sciences or Baden-Württemberg Cooperative State Universities may also be appointed supervisors or reviewers according to Art. 15, par. 3. Based on the qualification of the professor of Universities of Applied Sciences or Baden-Württemberg Cooperative State Universities (DHBW), the Doctoral Admissions Committee shall decide on the appointment as supervisor in the corresponding doctoral procedure.
- (4) The rights of participation of professors according to Art. 44, par. 1, clause 1, No. 1, LHG and of executive scientists according to Art. 14, par. 3, KITG shall not be affected by retirement. Other persons authorized to participate in doctoral procedures, who no longer work at KIT, may participate in a doctoral procedure for up to four semesters after their leave. This also applies to *Privatdozenten / Privatdozentinnen* who are no longer authorized to teach at KIT. Article 6, par. 8 of the “Verfahrensordnung des Karlsruher Instituts für Technologie (KIT) zur Errichtung des Status eines “KIT Associate Fellow”” (Rules of Procedure of Karlsruhe Institute of Technology (KIT) for Establishment of the Status “KIT Associate Fellow”) shall remain unaffected.
- (5) If a person authorized by a KIT Department to participate in doctoral procedures has concluded a doctoral agreement according to Art. 10 and his/her membership with the KIT Department ends afterwards, he/she shall continue to be a person authorized by the KIT Department to participate in doctoral procedures according to the present Regulations until the doctoral procedure for which the doctoral agreement has been concluded is completed, but not for a period longer than two years. Clause 1 shall also apply to a fully employed member of the KIT Department. The Doctoral Admissions Committee may extend the maximum period outlined in clause 1 upon request in writing by the person authorized to participate in doctoral procedures.

Article 4 Requirements for Admission to the Doctorate

- (1) Unless otherwise provided for below, admission to the doctorate requires successful completion

- of a master's program
 - or of a degree program with a standard study period of at least four academic years at a university, university of education or art academy
 - or of a degree program based on an undergraduate program at a university, university of education or another university that has the right to award doctorates in civil engineering, geo- or environmental sciences with the overall result of 'Good' or better or with an above-average result.
- (2)** On the justified request in writing by the candidate, the Doctoral Admissions Committee may recognize successful completion of studies in a subject other than civil engineering, geo- or environmental sciences for admission to the doctorate, provided that the subject in which the degree was achieved is primarily related to the topic of the doctoral thesis and all remaining requirements outlined in par. 1 are fulfilled. In these cases, the Doctoral Admissions Committee shall assess equivalence of the documented study and examination achievements to the requirements of par. 1 and, if necessary, define supplementary requirements as outlined in par. 4. The request for recognition and assessment of equivalence of the documented study and examination achievements shall be submitted in writing to the Doctoral Admissions Committee either together with the request for acceptance as a doctoral candidate according to Art. 11 or not later than twelve months prior to the request for admission to the doctoral procedure according to Art. 13.
- (3)** A degree reached at a foreign state or state-recognized college equivalent to a university, which corresponds to the requirements outlined in par. 1 or 2, will be recognized as equivalent by the Doctoral Admissions Committee taking into account the valid recommendations made by the Central Office for Foreign Education regarding the equivalence of degrees. In cases of doubt, the Central Office for Foreign Education shall be consulted. The Doctoral Admissions Committee may define supplementary requirements as outlined in par. 4.
- (4)** For proof of the candidate's scientific qualification, admission to the doctorate in the cases of paragraphs 2 and 3 may be subject to supplementary requirements to be defined by the Doctoral Admissions Committee. These supplementary requirements that are to be in line with the requirements of the doctoral subject shall not exceed the amount of 60 credits. They shall exclusively extend the doctoral candidate's competencies required for work on the doctoral research topic. The conditions shall be fulfilled prior to admission to the doctoral procedure.
- (5)** Highly qualified holders of bachelor's degrees or graduates of a state examination program other than outlined in par. 1 as well as diploma degree holders of Universities of Applied Sciences and Cooperative State Universities can be admitted to the doctorate, if they have completed their studies in the subjects outlined in par. 1 or in subjects that

are equivalent according to par. 2 with above-average results. A person authorized by the KIT Department to participate in doctoral procedures according to Art. 3 must have agreed to act as a supervisor and the candidate must have proved in an aptitude test procedure according to par. 6 that he/she is qualified to perform scientific work in the doctoral subject. Admission shall be refused, if the candidate has already failed to pass an aptitude test procedure for a doctorate or an equivalent test at a university or equivalent college.

- (6)** To prove their scientific qualification, graduates according to par. 5 shall submit a request in writing for an aptitude test procedure to the Doctoral Admissions Committee, if they aim for a doctorate. The candidate shall successfully pass examinations in courses that are assigned 60 credits and prepare a scientific paper equivalent to a master's thesis in a degree program offered by the KIT Department of Civil Engineering, Geo- and Environmental Sciences. The courses in which the examinations are to be passed and the topic of the scientific paper shall be specified by the Doctoral Admissions Committee. A graduation thesis of a university, University of Applied Sciences or Cooperative State University may be recognized as a scientific paper by the Doctoral Admissions Committee in agreement with the supervisor authorized to participate in doctoral procedures according to Art. 10, provided that it is equivalent in scientific content to a master's thesis in a degree program of the KIT Department. Examinations according to clause 2 and preparation and assessment of the scientific paper shall be subject to the Studies and Examination Regulations of Karlsruhe Institute of Technology (KIT) for the respective master's program. The aptitude test procedure shall be completed after four semesters. The Doctoral Admissions Committee shall determine whether the aptitude test procedure was completed successfully. In the case of successful completion of the aptitude test procedure, the KIT Dean shall inform the candidate in writing about the result. Otherwise, the Doctoral Admissions Committee shall communicate unsuccessful completion of the aptitude test procedure in writing, with the reasons and information on the rights to appeal being indicated. Upon written request, the Doctoral Admissions Committee may extend the period given in clause 6. If the procedure is not completed successfully within the period given, the candidate shall be deemed to have failed in proving that he/she is qualified to perform scientific work in the doctoral subject according to par. 5.
- (7)** Upon written request by the candidate, the Doctoral Admissions Committee shall decide on recognitions in connection with paragraphs 1 to 6.
- (8)** In justified exceptional cases and upon written request by the candidate, the Doctoral Admissions Committee may grant exemption from the requirements specified in paragraphs 1 to 6 and specify ancillary conditions.

Article 5 Doctorate under Joint Supervision with a Department of a Foreign University

- (1) A doctorate may be supervised jointly with the department of a foreign university, the objective being to convey intercultural competencies to the doctoral candidate and enabling him/her to deal with different science systems and university cultures.
- (2) The doctoral candidate shall be accepted for the doctorate by both departments and supervised by a supervisor each. Joint supervision shall be agreed upon by the universities involved in an agreement signed by the Rector or President and the supervisor of the doctoral candidate at the cooperating universities. This agreement shall additionally require approval by the Doctoral Admissions Committee. By way of derogation from the remaining provisions of the present Regulations, such an agreement may cover in particular:
 1. The composition of the Doctoral Examination Committee,
 2. the language in which the doctoral thesis is to be written and the oral examination is to be held,
 3. the grades for assessing the doctoral achievements, and
 4. the publication of the doctoral thesis.
- (3) Joint supervision of doctoral candidates may also be agreed upon by the universities involved under conditions of par. 2 in a framework agreement. An agreement on the joint supervision of a doctoral candidate that corresponds to a framework agreement according to clause 1 shall not require approval by the Doctoral Admissions Committee according to par. 2, clause 3.
- (4) The universities shall jointly award the doctorate. The doctoral degree may only be held alternatively in the German or in the foreign form. Both universities shall issue a separate doctoral degree certificate. Both doctoral degree certificates shall indicate that the doctoral procedure was of binational character and that the doctoral degree certificate shall be valid together with the other certificate only.

Article 6 Doctorate in Cooperation with a University of Applied Sciences

If Karlsruhe Institute of Technology (KIT) and a University of Applied Sciences cooperate in a doctoral procedure, professors of the Universities of Applied Sciences shall participate in doctoral procedures as supervisors and examiners with the same rights and obligations. This especially applies to structured PhD programs in which the doctoral procedure is supervised jointly. Further organization of cooperation shall be subject to the respective agreement.

Article 7 Participation of External Doctoral Candidates

External doctoral candidates are doctoral candidates working on their doctoral thesis at KIT without being employed by KIT and without direct affiliation to an organizational unit of KIT. They shall be integrated in the working group of the supervisor, for instance, by participation in seminars for doctoral candidates or research seminars or by participation in conferences and summer schools.

Article 8 Ombudspersons

In cases of conflicts or disputes between the doctoral candidate and supervisor during the doctoral procedure, both may contact the Ombudspersons appointed by the KIT Senate. In this respect, it is referred to the “Satzung zur Bestellung von Ombudspersonen für Doktorandinnen und Doktoranden sowie Betreuerinnen und Betreuer des Karlsruher Instituts für Technologie (KIT)” (statutes on appointment of Ombudspersons for doctoral candidates and supervisors of Karlsruhe Institute of Technology (KIT)).

Article 9 Inspection of Records

The right to inspection of records shall be subject to the legal provisions and in particular to Art. 29 of the “Verwaltungsverfahrensgesetz für Baden-Württemberg” (Baden-Württemberg Administrative Procedure Act – LVwVfG).

Section 2: Doctoral Procedure

Article 10 Doctoral Agreement

The doctoral candidate and a person authorized to participate in doctoral procedures according to Art. 3 as supervisor shall conclude a doctoral agreement in writing specifying the details outlined in Art. 38, par. 5, cl. 3, LHG, at least. If the supervisor is not a member of the KIT Department, the doctoral agreement must also be signed by another person authorized to participate in doctoral procedures, who is member of the KIT Department. The person authorized to participate in doctoral procedures according to cl. 2, second part, also is the supervisor of the doctoral candidate in addition to the supervisor specified in cl. 1.

Article 11 Acceptance as Doctoral Candidate

- (1) Prior to the preparation of the doctoral thesis, a candidate meeting the requirements for admission to the doctorate according to Art. 4 and aiming for a doctorate shall apply to the Doctoral Admissions Committee in writing for acceptance as doctoral candidate.
- (2) The following documents shall be attached to this application:
 1. Proof/proofs according to Art. 4,

2. description of the candidate's professional and scientific career,
3. information on the intended area of work or topic of the doctoral thesis,
4. specification of the intended doctoral degree (Doctor of Engineering (Dr.-Ing) or Doctor of Natural Sciences (Dr. rer. nat)),
5. a declaration in writing according to Annex 5a of the present Regulations,
6. a copy of the doctoral agreement as outlined in Art. 10,
7. proof of registration as a doctoral candidate with the Karlsruhe House of Young Scientists (KHYS), and
8. the doctoral degree certificate, if the doctoral candidate has already been conferred a doctoral degree.

(3) As a rule, the Doctoral Admissions Committee shall decide on acceptance of the doctoral candidate within a period of 16 weeks upon receipt of the application. Acceptance of the doctoral candidate shall be notified in writing to the latter, together with information on the rights to appeal. With the acceptance as a doctoral candidate, the KIT Department shall be obliged to scientifically supervise the doctoral candidate.

(4) The Doctoral Admissions Committee shall refuse acceptance of the doctoral candidate, if

1. the field of work or topic chosen for the doctoral thesis is not covered by the scope of work of the KIT Department or
2. a reason exists according to Art. 14, par. 2, cl. 1.

The candidate shall be notified in writing of the refusal, with the reasons and information on the rights to appeal being indicated. Prior to this, the candidate shall be given the opportunity to comment on the facts relevant to the decision.

(5) Acceptance as a doctoral candidate may be subject to supplementary requirements specified by the Doctoral Admissions Committee, if certain prerequisites for admission to the doctorate according to Art. 4 still remain to be fulfilled. The Doctoral Admissions Committee shall decide on whether the requirements are fulfilled and the doctoral candidate shall be notified in writing of this decision. If the supplementary requirements are not met or not met in due time, acceptance as a doctoral candidate may be revoked; par. 4, clauses 2 and 3 shall apply.

(6) In case the doctoral candidate does not apply for admission to the doctoral procedure according to Art. 13 within a period of six years upon acceptance as a doctoral candidate, this status shall expire. The resulting obligation pursuant to Art. 3, cl. 3, shall be terminated. The status of a doctoral candidate may be extended by the Doctoral Admissions Committee on written request by the doctoral candidate.

(7) In case the supervisor can no longer fulfill his/her task for an important reason, the Doctoral Admissions Committee shall hear the doctoral candidate and, if possible,

appoint another competent person authorized by the KIT Department to participate in doctoral procedures according to Art. 3 as a supervisor within a period of two months.

Article 12 Doctoral Thesis

- (1)** The doctoral thesis shall deal with a scientific topic related to the areas of work of the KIT Department. It shall provide evidence of the doctoral candidate's qualification to carry out independent scientific work and to clearly present the results. The doctoral thesis shall advance scientific knowledge and present the topic in a comprehensive and consistent way.
- (2)** The doctoral thesis must be written in either German or English. The doctoral thesis shall begin with a title page in the form specified in Annex 1a, directly followed by abstracts in the German and English languages, with the first abstract being written in the language chosen for the doctoral thesis. The abstracts should not exceed two pages each.
- (3)** The doctoral thesis may also be based on prior publications or work submitted for publication. It must contribute to an advancement of knowledge corresponding to that of a monographic doctoral thesis and correspond to the requirements outlined in par. 1. Prior publications or work submitted for publication must be related coherently in terms of their topic and may be incorporated in the doctoral thesis, provided that the doctoral candidate has independently developed a major part of it. Prior publications or work submitted for publication must be put into context. A mere stringing together of prior publications or work submitted for publication shall not be sufficient. It must be clearly visible which parts of the doctoral thesis have already been published or submitted for publication. In case the doctoral candidate is co-author according to clause 3, independent development of a major part shall be assured in No. 7 of Annex 5b of the present Regulations.
- (4)** A doctoral thesis will only be accepted, if the complete doctoral thesis or major parts of it have never been used for graduation before. On the written request of the doctoral candidate, the Doctoral Admissions Committee shall decide on justified exceptions.

Article 13 Application for Admission to the Doctoral Procedure

- (1)** Whoever fulfills the requirements for admission to the doctorate according to Art. 4, may apply for admission to the doctoral procedure. The application shall be submitted in writing to the KIT Dean. Prior acceptance as a doctoral candidate is not required.
- (2)** The following documents must be enclosed with the application:
 1. Certificates and documents according to Art. 11, par. 2, Nos. 1, 2, and 8,
 2. the doctoral thesis in triplicate and an electronic version of the doctoral thesis,

3. specification of the intended doctoral degree (Doctor of Engineering (Dr.-Ing.) or Doctor of Natural Sciences (Dr. rer. nat.)),
4. an affirmation in lieu of oath according to Annex 3 of the present Regulations,
5. an applicant's signed copy of the instructions provided by KIT on the meaning and penal consequences of an affirmation in lieu of oath in accordance with Annex 4 of the present Regulations,
6. a declaration in writing according to Annex 5b of the present Regulations stating in particular that the "Regeln zur Sicherung guter wissenschaftlicher Praxis am Karlsruher Institut für Technologie (KIT)" (Rules for Safeguarding Good Scientific Practice at Karlsruhe Institute of Technology (KIT)) have been observed, and
7. a list of all technico-scientific and/or academic publications by the applicant.

The applicant may propose reviewers according to Art. 15, par. 3.

- (3) As long there is no negative reviewer's report on the doctoral thesis, the doctoral candidate can withdraw the application for admission to the doctoral procedure. In this case, the application shall be deemed as not having been submitted.
- (4) A doctoral candidate who failed in a previous doctoral procedure may apply only once again for admission to the doctoral procedure and do so one year upon notification of failure in the previous doctoral procedure at the earliest. Resubmission of a previously rejected doctoral thesis shall not be allowed, if the resubmitted version is identical to the previously submitted version. It is permitted to submit a version of the previously rejected doctoral thesis, which has been largely revised in terms of argumentation. The above clauses shall also apply, if failure occurred at another KIT Department or another university in the area of civil engineering, geo- and environmental sciences.

Article 14 Start of the Doctoral Procedure

- (1) The KIT Dean shall check the documents submitted for the doctorate according to Art. 13, par. 2, cl. 1 and determine whether the subject of the doctoral thesis falls into the responsibility of the KIT Department. In case the submitted documents are complete and the subject of the doctoral thesis falls into the responsibility of the KIT Department, the procedure is started by the Doctoral Admissions Committee, unless the latter decides that there is a reason for refusal according to par. 2. The start of the doctoral procedure is notified in writing to the doctoral candidate.
- (2) The Doctoral Admissions Committee decides to refuse the start of the doctoral procedure, if
 1. the requirements for admission to the doctorate according to Art. 4 are not fulfilled,

2. no person authorized by the KIT Department to participate in doctoral procedures according to Art. 3 declares to be scientifically responsible for the area covered by the doctoral thesis,
 3. the applicant has already made more than one unsuccessful attempt according to Art. 13, par. 4,
 4. a doctoral degree was revoked for legal reasons,
 5. reasons exist for the revocation of the doctoral degree according to the legal provisions,
 6. the applicant is not worthy of a doctorate due to a major violation of the principles of good scientific practice,
 7. the applicant has already been conferred the doctoral degree envisaged or to be determined by the Doctoral Admissions Committee according to Art. 20, par. 1, or
 8. if a contractual relationship against payment of the applicant exists or existed, which covers commercial advising relating to the doctorate and may result in at least one component of the doctorate not being developed on his/her own.
- (3)** Refusal shall require confirmation by the KIT Department Council. In case of a refusal, Art. 11, par. 4, clauses 2 and 3 shall apply.

Article 15 Doctoral Examination Committee

- (1)** Upon acceptance of the doctoral candidate or, if no acceptance as doctoral candidate took place, upon the initiation of the doctoral procedure, the Doctoral Admissions Committee shall appoint the Doctoral Examination Committee.
- (2)** The Doctoral Examination Committee consists of the two reviewers according to par. 3 and another two members authorized to participate in doctoral procedures according to Art. 3, with at least half of the members of the Doctoral Examination Committee having to be members of the KIT Department of Civil Engineering, Geo- and Environmental Sciences, who are authorized to participate in doctoral procedures. The reviewers shall represent the area of work covered by the doctoral thesis of the doctoral candidate. Work of all members of the Doctoral Examination Committee must be related to the subject of the doctoral thesis. The Chairperson of the Doctoral Examination Committee shall be appointed by the Doctoral Admissions Committee. This person must not be a reviewer.
- (3)** Two reviewers, i.e. a main reviewer and a second reviewer, shall be appointed. The reviewer may be any person authorized to participate in doctoral procedures according to Art. 3, who is competent in the respective subject. The Doctoral Admissions Committee shall not be bound to the proposals submitted by the doctoral candidate according to Art. 13, par. 2, cl. 2 when appointing the reviewers.

- (4) Persons authorized to participate in doctoral procedures according to Art. 3, who are not members of the KIT Department, may only be members of the Doctoral Examination Committee, if they are professors according to Art. 44, par. 1, cl. 1, No. 1, LHG, *Privatdozenten / Privatdozentinnen*, honorary professors with a doctorate, or other, usually habilitated scientists. Such persons authorized to participate in doctoral procedures may be second reviewers exclusively.
- (5) If required by the doctoral thesis due to its interdisciplinary character or large thematic scope, the Doctoral Admissions Committee shall appoint another person authorized to participate in doctoral procedures according to Art. 3 as another reviewer, who then will also be member of the Doctoral Examination Committee. When three reviewers are appointed, at least one reviewer should not be member of the KIT Department of Civil Engineering, Geo- and Environmental Sciences.
- (6) The main reviewer shall be the person authorized by the KIT Department to participate in doctoral procedures according to Art. 3 and be responsible for the subject of the doctoral thesis. One reviewer or, in the case of par. 5, at least one reviewer must be full-time professor of the KIT Department. Two reviewers or, in the case of par. 5, at least two reviewers must be professors according to Art. 44, par. 1, cl. 1, No. 1, LHG, executive scientists according to Art. 14, par. 3, KITG, or *Privatdozenten / Privatdozentinnen*, unless the second reviewer according to par. 4 is habilitated or has a comparable scientific qualification. According to Art. 7, par. 1 of the "Verfahrensordnung des Karlsruher Instituts für Technologie (KIT) zur Errichtung des Status eines "KIT Associate Fellow"" (Rules of Procedure of Karlsruhe Institute of Technology (KIT) for Establishment of the Status "KIT Associate Fellow"), a KIT Associate Fellow has the right to participate in doctoral procedures of scientists of his/her own (junior) research group. In derogation of Art. 7, par. 3 of the "Verfahrensordnung des Karlsruher Instituts für Technologie (KIT) zur Errichtung des Status eines "KIT Associate Fellow"" (Rules of Procedure of Karlsruhe Institute of Technology (KIT) for Establishment of the Status "KIT Associate Fellow"), a KIT Associate Fellow may be appointed main reviewer.
- (7) At least one of the reviewers should not be co-author of a publication of the candidate touching on the subject treated in the doctoral thesis.

Article 16 Acceptance and Assessment or Rejection of the Doctoral Thesis

- (1) Each reviewer shall submit to the KIT Dean an independent and justified review on the doctoral thesis at the latest three months upon receipt of the thesis and shall recommend either its acceptance or rejection.
- (2) The grade to be given for a doctoral thesis recommended for acceptance may be:
 sehr gut (very good) (magna cum laude) = 1,

gut	(good)	(cum laude)	= 2, or
genügend	(sufficient)	(rite)	= 3.

- (3) In the case of particularly outstanding achievements, the reviewer may propose in his/her review to award the overall predicate “ausgezeichnet” (excellent) (summa cum laude) when a corresponding result is achieved in the oral examination. This proposal must be justified.
- (4) If two reviewers have been appointed and their grades for the doctoral thesis of the candidate differ by more than one grade according to par. 2, a person authorized to participate in doctoral procedures according to Art. 3 shall be appointed as another reviewer, who shall then also be member of the Doctoral Examination Committee.
- (5) As soon as all reviews have been submitted, the KIT Dean shall inform the persons authorized by the KIT Department to participate in doctoral procedures according to Art. 3 that the doctoral thesis and the reviews of the reviewers will be made accessible to the persons authorized by the KIT Department to participate in doctoral procedures for a period of 14 days or, in the case of paragraphs 7 and 8, for a period of four weeks. Within the period mentioned, persons authorized by the KIT Department to participate in doctoral procedures according to Art. 3 may, in written form, object to the doctoral thesis and the grade proposed, with the reasons being indicated.
- (6) In case all reviewers have recommended acceptance of the doctoral thesis and no objection has been made, the Chairperson of the Doctoral Examination Committee shall declare acceptance of the doctoral thesis and determine the grade as the unrounded arithmetic mean of the grades of the reviewers. In case of an objection, the Chairperson of the Doctoral Examination Committee, after having heard the reviewers, shall decide whether the objection is to be considered in assessing the doctoral thesis. The Doctoral Examination Committee may decide to request another review before the decision will be made. If an objecting person demands the doctoral thesis to be rejected, another review is to be obtained. If the objection is to be considered, the Doctoral Admissions Committee, after having heard the reviewers, shall decide on the acceptance or rejection of the doctoral thesis. If acceptance of the doctoral thesis is agreed upon, every member of the Doctoral Admissions Committee shall propose a grade according to par. 2. From these proposals, the unrounded arithmetic mean shall be determined as the grade of the doctoral thesis.
- (7) In case the doctoral thesis is rejected by one, but not all reviewers, the KIT Dean, upon proposal by the Doctoral Examination Committee, shall appoint a person authorized to participate in doctoral procedures according to Art. 3 as another reviewer, who then will also be member of the Doctoral Examination Committee. In this case, the display period according to par. 5 shall begin upon receipt of the additional review only. If no objection is made, the Doctoral Admissions Committee shall decide on the acceptance or rejection

of the doctoral thesis. In case of a tie, the vote of the Chairperson shall decide. In case the Doctoral Admissions Committee agrees on the acceptance of the doctoral thesis, it shall determine the unrounded arithmetic mean from the grades proposed by all reviewers as the grade of the doctoral thesis. In case of an objection, par. 6, clauses 2, 4 through 6 shall apply.

- (8) In case all reviewers recommend rejection of the doctoral thesis and no objection is made, the Doctoral Admissions Committee shall decide on acceptance or rejection of the doctoral thesis. Par. 6, cl. 3 shall apply. In case the doctoral thesis is accepted, par. 6, clauses 5 and 6 shall apply. In case of an objection, par. 6, clauses 2, 4 through 6 shall apply.
- (9) In case a reviewer found deficiencies in the doctoral thesis without rejecting it in general, he/she may request in his/her review the elimination of deficiencies as a prerequisite for publication of the doctoral thesis. Otherwise, the reviewed version of the doctoral thesis shall be deemed to have been approved for publication.
- (10) In case the doctoral thesis has been rejected, the candidate shall be notified in writing by the KIT Dean, with the reasons and information on the rights to appeal being indicated. With this, the doctoral procedure is terminated unsuccessfully. A copy of the doctoral thesis, together with the reviews, shall be kept in the files.
- (11) A reviewer who has rejected the doctoral thesis may demand that he/she is not mentioned as reviewer in the publication of the thesis.

Article 17 Oral Examination

- (1) In case the doctoral thesis has been accepted, the Doctoral Admissions Committee shall fix the date and place of the oral examination. The place and date of the oral examination shall be notified to the doctoral candidate in writing. The time span between the receipt of this information and the date of the oral examination must be not less than 14 days. A shorter period may only be fixed in agreement with the doctoral candidate.
- (2) The oral examination shall be conducted by the Doctoral Examination Committee and shall take place as an individual examination of about one and a half hours' duration.
- (3) The Doctoral Admissions Committee shall appoint a member of the Doctoral Examination Committee as Chairperson for the oral examination. In derogation of Art. 11, par. 1 of the "Verfahrensordnung des Karlsruher Instituts für Technologie (KIT)" (rules of procedure of Karlsruhe Institute of Technology (KIT)), the Doctoral Examination Committee shall have a quorum, if at least the Chairperson and three other members of the Doctoral Examination Committee are present for the oral examination.
- (4) If one member of the Doctoral Examination Committee cannot participate in the oral examination, the Chairperson of the Doctoral Examination Committee shall appoint a

deputy from the group of deputies according to Art. 15, par. 2, cl. 2, who will take part in the oral examination instead of the absent member. The doctoral candidate must be informed immediately, but at the beginning of the oral examination at the latest, about the changed composition of the Doctoral Examination Committee. In case of clause 1, the Chairperson of the Doctoral Admissions Committee, in agreement with the Doctoral Examination Committee, may fix a date other than that specified in par. 1, cl. 1 for the oral examination instead of appointing a deputy. Par. 1, clauses 2 through 4 shall apply.

- (5)** The KIT Dean shall invite the following persons to the oral examination:

 1. The President and the KIT Deans of the other KIT Departments,
 2. the KIT Department members authorized to participate in doctoral procedures; “KIT Associate Fellows” shall be invited only, if the doctoral candidate is a member of the Fellow’s own (junior) research group.
- (6)** The oral examinations shall start with an introductory presentation of about 30 minutes by the doctoral candidate about his/her doctoral thesis. It is followed by an examination discussion of about one hour with the members of the Doctoral Examination Committee and the scientists present according to par. 5, No. 2. The examination discussion shall be based on the subject of the doctoral thesis and shall demonstrate whether the candidate has good knowledge of the area to which this doctoral thesis belongs.
- (7)** In agreement with the doctoral candidate, the introductory presentation and the examination discussion, but not the assessment of the oral examination of the doctoral candidate, shall be public. Public in this sense refers to the members of the KIT Department. On written request by the doctoral candidate, the Chairperson of the oral examination may allow persons who are no members of KIT to sit in the audience during the introductory presentation and discussion.
- (8)** Even if the English language has been chosen for the doctoral thesis, the introductory presentation and the examination discussion shall be in German. Upon written request by the doctoral candidate, the Doctoral Admissions Committee may approve of an oral examination in English.
- (9)** The Chairperson chairs the oral examination. He/she ensures that the procedure is carried out properly and takes the minutes to record the oral examination and its result. The minutes shall be signed by all present members of the Doctoral Examination Committee.
- (10)** Directly upon the completion of the oral examination, the members of the Doctoral Examination Committee shall assess the oral examination of the doctoral candidate. The present scientists according to par. 5, No. 2 shall participate in this assessment with an advisory function. Each member of the Doctoral Examination Committee shall independently award a grade according to Art. 16, par. 2; an insufficient examination shall be given the grade “nicht bestanden (4.0)” (failed).

- (11) The final grade of the oral examination shall be the unrounded arithmetic mean of the individual grades according to par. 10, cl. 3. The oral examination shall be passed, if this grade is 3.0 or better.
- (12) In case the doctoral candidate does not participate in the oral examination at the fixed date without giving an important reason, the oral examination shall be deemed to have been failed.

Article 18 Repetition of the Oral Examination

- (1) If the doctoral candidate fails in the oral examination, he/she may apply once for a repetition of the oral examination. Repetition shall be applied for within six months upon announcement of the failure in the previous oral examination.
- (2) If the oral examination is not passed repeatedly or in case the doctoral candidate does not apply for a repetition of the examination within the period specified in par. 1, cl. 2, the entire examination shall be deemed as having failed. The doctoral procedure then shall be unsuccessfully terminated.
- (3) The candidate shall be informed about the unsuccessful termination of the doctoral procedure according to Art. 11, par. 4, cl. 2. If the oral examination is failed due to a lacking application for a repetition of the oral examination within the period specified in par. 1, cl. 2, Art. 11, par. 4, cl. 3 shall apply in addition. Together with the reviews and the minutes of the oral examination and, in case of a repetition of the oral examination, the minutes of the oral examinations, the doctoral thesis shall remain in the files of the KIT Department.
- (4) Upon written request by the doctoral candidate, the Doctoral Admissions Committee shall decide on justified exceptions from the provisions outlined in paragraphs 1 and 2.

Article 19 Withdrawal from the Oral Examination

- (1) In case the candidate is unable to take part in the oral examination due to sickness or another important reason, the Doctoral Examination Committee shall approve withdrawal from the oral examination on written request. This request shall be addressed immediately to the Doctoral Examination Committee, with the reason of the withdrawal being indicated and the corresponding proofs being attached. In case of sickness, a medical certificate containing the medical information necessary to assess the inability to take part in the examination shall be added.
- (2) In case withdrawal from the oral examination is approved, a new date shall be fixed for the examination. Otherwise, the oral examination shall be deemed to have been failed; Art. 11, par. 4, clauses 2 and 3 shall apply.

Article 20 Overall Grade for the Doctorate and Determination of the Doctoral Degree to Be Awarded

- (1) After the oral examination, the Doctoral Examination Committee shall determine the overall grade for a successful doctorate and, in line with the contents of the doctoral thesis, the doctoral degree to be awarded (Doctor of Engineering (Dr.-Ing) or Doctor of Natural Sciences (Dr. rer. nat.)).
- (2) In case the candidate has passed the oral examination, the overall grade is the arithmetic mean of the grade of the doctoral thesis according to Art. 16, pars. 6, 7, or 8 and the final grade of the oral examination according to Art. 17, par. 11. The overall grade for the doctorate may be

for a mean value of 1.0 to less than 1.6	“sehr gut”	(very good, magna cum laude)
for a mean value of 1.6 to smaller than 2.6	“gut”	(good, cum laude),
for a mean value of 2.6 to 3.5	“bestanden”	(passed, rite).
- (3) In case of outstanding results, the Doctoral Examination Committee may decide to award the overall grade “mit Auszeichnung bestanden” (passed with distinction; summa cum laude), if the results are not worse than 1.0 and at least half of the reviewers proposed to do so according to Art. 16, par. 3. The decision must be made with a three-fourths majority of the votes of the members of the Doctoral Examination Committee. If these requirements are not fulfilled, a total grade according to par. 2 will be awarded.
- (4) The overall grade for the doctorate, the assessment of the doctoral thesis, and the grade for the oral examination shall be communicated to the doctoral candidate by the Chairperson of the Doctoral Examination Committee after the final session.
- (5) The KIT Dean shall forward to the doctoral candidate a notification in writing with information on the rights to appeal and contents outlined in par. 5.
- (6) On request, the KIT Department shall issue a preliminary certificate of the successful completion of the doctorate with the overall grade being indicated.

Article 21 Publication of the Doctoral Thesis and Submission of the Deposit Copies

- (1) Within one year after passing the oral examination, the doctoral thesis shall be published by the doctoral candidate in a version approved by the reviewers according to Art. 16, par. 9. Depending on the type of publication, the following copies or files shall be handed over to the KIT Library within the period indicated above:
 - a) A machine-readable file meeting the requirements specified by the KIT Library in case of publication in an electronic version with unrestricted access by public data networks via the repository of the KIT Library,

- b) twelve printed and archivable copies in case of publication by photoprint. This also applies to doctoral theses published in a scientific series that is not published by a publishing house,
- c) three printed copies in case of publication by a publishing house and availability in bookstores, if a minimum circulation of 150 copies and/or unrestricted access to the doctoral thesis on the Internet in electronic form is ensured, or
- d) three copies in case of publication in a scientific journal.

The KIT Library shall certify in writing the publication and compliance with the delivery obligation.

- (2)** The versions submitted in accordance with par. 1, cl. 2, a or b must have a title page or contain bibliographic data on the doctoral thesis. The copies published according to par. 1, cl. 2, c or d must be accompanied by the notation that the publication represents a doctoral thesis approved by the KIT Department of Civil Engineering, Geo- and Environmental Sciences of Karlsruhe Institute of Technology (KIT) and must indicate the date of the oral examination. In case the reviewers approve a title other than that of the examination copy, this title shall be indicated in the doctoral thesis.
- (3)** In case of par. 1, cl. 2, a, the doctoral candidate shall transfer to Karlsruhe Institute of Technology (KIT) the permanent right to make the doctoral thesis available in data networks within the limits of the statutory tasks of the KIT Library. The KIT Library shall check the delivered version of the doctoral thesis for legibility and agreement with the requirements of the KIT Library according to par. 1, cl. 2, a. Delivery of files that do not meet these requirements shall not be deemed a publication and delivery.
- (4)** In case of par. 1, cl. 2, b, the doctoral candidate shall transfer to Karlsruhe Institute of Technology (KIT) the permanent right to produce and disseminate further copies of the doctoral thesis.
- (5)** In justified individual cases of delivery according to par. 1, cl. 2, a and on written request by the doctoral candidate, the KIT Dean may deem the obligations outlined in par. 1 to be also fulfilled when the doctoral thesis can be made publicly accessible with a certain delay only due to a non-disclosure notice resulting from patent application or due to a publication in a journal. In this case, the doctoral candidate must have fulfilled all delivery requirements, the time of latest publication must be indicated in the non-disclosure notice, and it must be possible for the publication to be made by the KIT Library without any further interference by the doctoral candidate. Fulfilling of the above requirements will be certified in writing by the KIT Dean. A non-disclosure notice may be applied for using the form given by the KIT Library for a period of up to two years, which may be extended twice by another year, but for not more than a duration of four years after the signature date. The application for extension of the non-disclosure notice shall be made

two weeks prior to its expiry at the latest. On the certificate according to par. 1, cl. 3, the KIT Library will indicate the existence and duration of the non-disclosure notice.

- (6) The doctoral candidate shall declare in writing to the KIT Library that the version submitted is identical in terms of contents with the version approved by the reviewers according to Art. 16, par. 9.
- (7) In case the deadline specified in par. 1 is missed, any and all rights acquired as a result of the doctoral examination shall expire. Upon written request by the doctoral candidate, the KIT Dean may extend the deadline specified in par. 1 up to a total duration of three years in justified cases. Further extension shall be excluded. The KIT Library shall be informed in writing about this decision.

Article 22 Award of the Doctorate and Doctoral Degree Certificate

- (1) The doctoral degree certificate shall be issued with the date of the oral examination, signed by the President and the KIT Dean, and provided with the seal of Karlsruhe Institute of Technology. Its layout corresponds to that in Annex 2.
- (2) In addition to the doctoral degree certificate, a doctoral degree report shall be issued. It contains the title of the doctoral thesis, the overall grade of the doctorate with the Latin translation given in brackets, and the positions held, academic degrees, titles, and names of the reviewers. It shall be signed by the KIT Dean and provided with the seal of the KIT Department.
- (3) The doctorate is awarded by the KIT Dean handing over the doctoral degree certificate. The doctoral degree certificate will be handed over only after the publication of the doctoral thesis and delivery of the deposit copies according to Art. 21.
- (4) Prior to the award of the doctoral degree certificate, neither the doctoral degree nor the title of doctor with an addition, such as “designatus (des.)” (designated) or “in spe” (to be) shall be used.

Article 23 Invalidity of the Doctorate and Revocation of the Doctoral Degree

- (1) If, prior to the delivery of the doctoral degree certificate, it is established that the doctoral candidate is guilty of deception in at least one part of the doctorate or that essential prerequisites for the doctorate have erroneously been taken for granted, the Doctoral Admissions Committee may declare the doctorate invalid and the doctoral procedure to be completed without success. The KIT Dean shall inform the President about this decision.
- (2) The doctoral degree may be revoked by the Doctoral Admissions Committee, if it is found out later that it was achieved by deception. As for the rest, the legal provisions shall apply.

- (3) Prior to the decision of the Doctoral Admissions Committee on the invalidity of the doctorate and on the revocation of the doctoral degree, the candidate shall be given the opportunity to comment on the facts relevant to this decision.
- (4) Incriminating decisions of the Doctoral Admissions Committee according to par. 1 or 2 shall be notified in writing to the candidate, with the reasons and information on the rights to appeal being indicated.
- (5) Return of the doctoral degree certificate, doctoral degree report, notification according to Art. 20, par. 5, and of the preliminary certificate according to Art. 20, par. 6, shall be subject to Art. 52, LVwVfG.

Section 3: Honors

Article 24 Honorary Doctorate

- (1) The KIT Department may award the academic degree of a “Doktor der Ingenieurwissenschaften ehrenhalber“ (Dr.-Ing. e.h.) or “Doktorin der Ingenieurwissenschaften ehrenhalber“ (Dr.-Ing. e.h.) (Honorary Doctor of Engineering Sciences) or the degree of “Doktor der Naturwissenschaften ehrenhalber“ (Dr. rer. nat. h. c.) or “Doktorin der Naturwissenschaften ehrenhalber“ (Dr. rer. nat. h. c.) (Honorary Doctor of Natural Sciences) to persons who are no members of Karlsruhe Institute of Technology (KIT) or of one of its bodies in recognition of outstanding scientific merits within the KIT Department’s fields of teaching and research.
- (2) The KIT Senate shall decide on the award of the honorary doctorates Dr.-Ing. e.h. or Dr. rer. nat. h. c. upon proposal by the Executive Board in agreement with the KIT Department or upon proposal by the KIT Department in agreement with the Executive Board. The KIT Department Council shall deliberate on the proposal in two readings. For preparation, it shall establish an advisory commission of four members of the KIT Department who are authorized to participate in doctoral procedures or shall assign the preparation to the Executive Commission. The decision on the proposal to be submitted to the KIT Senate shall require a three-fourths majority of the present members of the KIT Department Council.
- (3) The honorary doctorate shall be awarded by the KIT Dean handing over the certificate of honor which points out the merits of the honored person in an adequate setting. The certificate shall be signed by the President and the KIT Dean and shall be provided with the seal of Karlsruhe Institute of Technology (KIT).

Article 25 Doctoral Jubilee

The KIT Department may renew a doctoral certificate on the occasion of the 50th anniversary of the day the doctoral degree was awarded, if this is deemed appropriate considering the special merits for science or the exceptionally close relationship of the person to be honored with Karlsruhe Institute of Technology (KIT). The respective decision shall be made by the KIT Department Council.

Section 4: Concluding Provisions

Article 26 Entry into Force, Transition Regulation

- (1)** The present Regulations for the Award of the Doctoral Degree shall enter into force on the day after publication in the official announcements of Karlsruhe Institute of Technology (KIT).
- (2)** At the same time, the Regulations for the Award of the Doctoral Degree of Karlsruhe Institute of Technology (KIT) for the Department of Civil Engineering, Geo- and Environmental Sciences of November 30, 2012 (Official Announcement of Karlsruhe Institute of Technology (KIT) No. 65 of November 30, 2012) shall cease to be in force.
- (3)** In case a doctoral agreement was concluded according to Art. 10 or acceptance as a doctoral candidate was expressed according to Art. 11 prior to the entry into force of the present Regulations for the Award of the Doctoral Degree, these doctoral procedures shall continue to be subject to the Regulations for the Award of the Doctoral Degree of Karlsruhe Institute of Technology (KIT) for the Department of Civil Engineering, Geo- and Environmental Sciences of November 30, 2012 (Official Announcement of Karlsruhe Institute of Technology (KIT) No. 65 of November 30, 2012). Upon request by the doctoral candidate, the provisions of the present Regulations for the Award of the Doctoral Degree may apply. The request shall be addressed in writing to the Chairperson of the Doctoral Admissions Committee.

Annex 3 (German)

Die eidesstattliche Versicherung ist schriftlich abzugeben. Die Möglichkeit einer Aufnahme der eidesstattlichen Versicherung zur Niederschrift bleibt unberührt. Die schriftliche Erklärung hat folgenden Wortlaut:

Eidesstattliche Versicherung gemäß § 13 Absatz 2 Satz 1 Ziffer 4 der Promotionsordnung des Karlsruher Instituts für Technologie (KIT) für die KIT-Fakultät für Bauingenieur-, Geo- und Umweltwissenschaften

1. Bei der eingereichten Dissertation zu dem Thema

.....

handelt es sich um meine eigenständig erbrachte Leistung.

2. Ich habe nur die angegebenen Quellen und Hilfsmittel benutzt und mich keiner unzulässigen Hilfe Dritter bedient. Insbesondere habe ich wörtlich oder sinngemäß aus anderen Werken übernommene Inhalte als solche kenntlich gemacht.

3. Die Arbeit oder Teile davon habe ich wie folgt/bislang* nicht an einer Hochschule des In- oder Auslands als Bestandteil einer Prüfungs- oder Qualifikationsleistung vorgelegt.

Titel der Arbeit:

Hochschule und Jahr:

Art der Prüfungs- oder Qualifikationsleistung:

4. Die Richtigkeit der vorstehenden Erklärungen bestätige ich.

5. Die Bedeutung der eidesstattlichen Versicherung und die strafrechtlichen Folgen einer unrichtigen oder unvollständigen eidesstattlichen Versicherung sind mir bekannt.

Ich versichere an Eides statt, dass ich nach bestem Wissen die reine Wahrheit erklärt und nichts verschwiegen habe.

Ort und Datum

Annex 3 (English)

The present affirmation in lieu of an oath shall be given in writing. The possibility of an oral affirmation in lieu of an oath for recording shall remain unaffected. The declaration in writing shall have the following wording:

Affirmation in lieu of oath according to Art. 13, par. 2, cl. 1, No. 4, of the Regulations of Karlsruhe Institute of Technology (KIT) for the Award of the Doctoral Degree at the KIT Department of Civil Engineering, Geo- and Environmental Sciences

1. The doctoral thesis covering the subject
represents my own independent work.

2. I only used the sources and aids indicated without any impermissible assistance by third persons. In particular, I have indicated any and all contents taken over from other works either literally or in substance.

3. The doctoral thesis or parts thereof have been submitted to a university in Germany or abroad as part of the examination or qualification work as follows/have not yet been submitted to a university in Germany or abroad as part of the examination or qualification work.*

Title of the work:

University and year:

Type of examination or qualification work:

4. I herewith confirm correctness of the above declarations.

5. I am aware of the significance of the affirmation in lieu of oath and the penal consequences of an incorrect or incomplete affirmation in lieu of oath.

I affirm in lieu of oath that, to the best of my knowledge, these statements are true and I have not concealed anything.

Place and date

Signature

*Delete as appropriate. In the former case, please indicate the title of the thesis submitted elsewhere, the university, the year of submission, and the type of examination or qualification work.

Annex 4 (German)

Eidesstattliche Versicherung Belehrung

Die Universitäten in Baden-Württemberg verlangen eine Eidesstattliche Versicherung über die Eigenständigkeit der erbrachten wissenschaftlichen Leistungen, um sich glaubhaft zu versichern, dass der/die Promovend/-in die wissenschaftlichen Leistungen eigenständig erbracht hat.

Weil der Gesetzgeber der Eidesstattlichen Versicherung eine besondere Bedeutung beimisst und sie erhebliche Folgen haben kann, hat der Gesetzgeber die Abgabe einer falschen eidesstattlichen Versicherung unter Strafe gestellt. Bei vorsätzlicher (also wissentlicher) Abgabe einer falschen Erklärung droht eine Freiheitsstrafe bis zu drei Jahren oder eine Geldstrafe.

Eine fahrlässige Abgabe (also Abgabe, obwohl Sie hätten erkennen müssen, dass die Erklärung nicht den Tatsachen entspricht) kann eine Freiheitsstrafe bis zu einem Jahr oder eine Geldstrafe nach sich ziehen.

Die entsprechenden Strafvorschriften sind in § 156 StGB (falsche Versicherung an Eides Statt) und in § 161 StGB (fahrlässiger Falscheid, fahrlässige falsche Versicherung an Eides Statt) wiedergegeben.

§ 156 StGB: Falsche Versicherung an Eides Statt

Wer vor einer zur Abnahme einer Versicherung an Eides Statt zuständigen Behörde eine solche Versicherung falsch abgibt oder unter Berufung auf eine solche Versicherung falsch aussagt, wird mit Freiheitsstrafe bis zu drei Jahren oder mit Geldstrafe bestraft.

§ 161 StGB: Fahrlässiger Falscheid, fahrlässige falsche Versicherung an Eides Statt

Abs. 1: Wenn eine der in den § 154 bis 156 bezeichneten Handlungen aus Fahrlässigkeit begangen worden ist, so tritt Freiheitsstrafe bis zu einem Jahr oder Geldstrafe ein.

Abs. 2: Strafflosigkeit tritt ein, wenn der Täter die falsche Angabe rechtzeitig berichtigt. Die Vorschriften des § 158 Abs. 2 und 3 gelten entsprechend.

Annex 4 (English)

Affirmation in Lieu of Oath

Instructions

The universities in Baden-Württemberg demand an affirmation in lieu of oath stating that the scientific paper submitted represents own work in order to be sure that the doctoral candidate has performed the scientific work on his/her own.

As the legislator attaches particular significance to the affirmation in lieu of oath and the latter may have major consequences, the legislator has made an incorrect affirmation in lieu of oath punishable. An intentional (i.e. deliberate) wrong affirmation may be punished by imprisonment of up to three years or a fine.

A negligent affirmation (i.e. an affirmation made although you should have recognized that the declaration is not true) may be punished by imprisonment of up to one year or a fine.

The corresponding penal provisions are given in Art. 156 StGB (Penal Code) (wrong affirmation in lieu of oath) and in Art. 161 StGB (Penal Code) (perjury, negligently wrong affirmation in lieu of oath).

Article 156 StGB: Wrong affirmation in lieu of oath

Persons making a wrong affirmation in lieu of oath to a competent authority or making incorrect statements in reliance on such an affirmation shall be punished with imprisonment for up to three years or with a fine.

Article 161 StGB: Perjury, negligently wrong affirmation in lieu of oath

Par. 1: if one of the actions specified in Arts. 154 to 156 was made negligently, this may be punished by imprisonment of up to one year or a fine.

Par. 2: impunity shall apply, if the offender corrects the wrong statement in due time. The provisions of Art. 158, paragraphs 2 and 3 shall apply accordingly.
